

Young Researchers and Innovators (YRI)

About the Event

The Young Researchers and Innovators (YRI) meeting is a dynamic platform for early-stage researchers, PhD candidates, postdocs, and young professionals in animal science. This year, YRI will run as a side event of **Animal Science Days 2025**, offering networking opportunities, collaborative activities, and skill development.

Objectives

- Strengthen international networking among young scientists.
- Engage early-stage researchers in EU-LI-PHE initiatives.
- Promote collaboration and knowledge exchange.

Programme Highlights

Day 1

- Introduction to EU-LI-PHE
- Participant introductions
- Overview of YRI activities and committee membership
- Group work kick-off:
 - Defining *Phenomics book* chapters & contributors
 - Technical/logistic mailing list solution
 - Selecting webinar topics & contributors
 - Designing a new EU-LI-PHE poster

Day 2

- Group work continuation
- Presentation of funding opportunities for ESRs
- Group presentations
- Planning follow-up activities

Expected Outcomes

- New collaborations and project ideas
- Shared resources and expertise
- Increased engagement in EU-LI-PHE network

Organisers

EU-LI-PHE YRI Committee

in collaboration with Animal Science Days 2025 Organising Committee
